BUSINESS INSIGHTS

1. Electronics is the strongest revenue-driving category

Electronics generates approximately ₹39M, making it the highest-performing category, significantly ahead of Sports (₹33M), Books (₹21M), Home & Kitchen (₹13M), and Clothing (₹11M).

2. Repeat customers are the primary revenue engine

The business has 95 repeat customers and a 95% customer repeat rate, indicating that revenue is heavily dependent on existing customers rather than one-time buyers.

3. Net Banking is the dominant payment method

Net Banking accounts for the highest order volume (118 orders, 23.6%) and generates the highest revenue (₹29.78M), making it the most preferred payment channel.

4. Cancellations are a notable business concern

The overall cancellation rate is 10.6%, with 53 cancelled orders out of 500. Cash on Delivery shows the highest cancellation rate (14.6%) and the highest number of cancelled orders, suggesting operational and revenue leakage.

5. Mumbai presents the strongest market opportunity

Mumbai has the highest customer count, highest order volume, highest revenue contribution, and the largest customer base, making it the most valuable city for growth initiatives.

BUSINESS RECOMMENDATIONS

1. Increase investment in Electronics

Since Electronics contributes the largest share of revenue, allocate more marketing budget, promotional campaigns, and inventory capacity to this category to maximize returns.

2. Strengthen customer retention programs

With a 95% repeat customer rate, loyalty programs, personalized offers, and cross-selling campaigns can further increase customer lifetime value and sustain revenue growth.

3. Reduce Cash-on-Delivery dependency

Introduce incentives for prepaid methods such as Net Banking, Debit Cards, and UPI, while investigating the reasons behind the higher cancellation rate associated with Cash on Delivery.

4. Focus expansion efforts on Mumbai and Bengaluru

These cities lead in customers and orders, indicating strong demand. Targeted advertising, faster delivery options, and localized promotions can help capture additional market share.

5. Improve inventory planning for high-demand products

Top-performing products such as Eco Similique, Eco A, and Smart Iste contribute substantial revenue and should receive priority in stock planning to avoid lost sales opportunities.
